LOSS OF THE HERSCHEL.

This splendid steamer has been lost entering the River, in the neighborhood of Maldonado, into which the vessel was run. The following are the only particulars yet known, as furnished to us by the agents for the line here:—

On Tuesday night, the 5th inst., at 11 a.m., a 'chasque' reached Montevideo from Maldonado, bearing a brief letter from Captain Markwell, dated Maldonado, 4th inst., the pith of which was that the steam-ship Herschel was in that port a total wreck and full of water. Few details were given beyond the important news that the passengers, 50 in number, with their luggage as well as the crew, were *all saved*.

Instantly on receipt of this despatch the agent sought the assistance of the British Consul, Mr. Lettsom, who sent a letter to Captain Phillips, of H.M.S. Stromboli, who rose at 2 a.m., and ordered the Triton and Dotterell immediately to get up steam and proceed at once to render the necessary assistance to the Herschel; and these steamers got under weigh at six o'clock yesterday morning. To recover what cargo there may be to be saved, the agent at Montevideo despatched seven pilot-boats yesterday. It is expected that the passengers will reach Montevideo with their effects to-day, per Dotorel.

The Herschel being a very strong steamer, and built in water-tight compartments, we may hope she will not be completely lost; but we await further particulars to-morrow.

Manifests and parcel lists to be seen at J. P. Boyd's office, 56 San Martin.

We have been favored with the following letter from a passenger on board this unfortunate steamer:—

"We are in a pretty mess here: the Herschell ran on some rocks last evening, between Castellos and Point Cape St. Mary. We expected to see her go to pieces, but luckily she got off, after putting us all in boats. We then went on board again: all hands to the pumps. Something then broke in the machinery. We are now under sail, and hope to get to Maldonado, or some other near place, where she can be beached. We are all well, and hope to get our luggage saved, and be forwarded to Buenos Ayres by some of the steamers. N. W.

THE COMMITTEE OF THE SOUTHERN RAILWAY TO THE PUBLIC.

(Translation).

Buenos Ayres, Dec. 5th 1865.

The interests of the Public and of the Southern Railway being so intimately connected, the Committee feels bound to give some explanations touching the resolution of Government in its Decree of the 4th inst., "declaring all official correspondence closed," and that henceforward the Committee can only communicate with Government through the 'Escribania Mayor or State-notary.

This measure, which is only censurable (*criticable*) for the motives on which it is based, is simply an anticipation of the wishes of the Committee, already clearly expressed in their last note of the 2nd inst., to terminate a controversy "initiated by the Minister in the public press." It was exceedingly painful for the Committee even with abundant reasons, to see themselves driven to the unpleasant task of publicly contradicting the Government, towards which they have always cherished, and still cherish, all proper respect. If the results of the discussion have been disagreeable for the Government, the Committee much regret it, but cannot be held anywise responsible.

It would have been much wiser for the Minister to keep the several notes (which were exchanged in discussing and defending mutual rights and obligations) in the Archives of the Ministry, instead of thrusting them into the papers as he has done, so unfortunately for himself and for the credit of the country.

When the Government published its decree of the 4th inst. it omitted to give also to the public the notification signed by the Chairman of the Committee with the note at foot which is as follows:

"Having been notified of the above resolution and reserving to myself the right of answering it suitably at another time, I protest, meanwhile, against the injurious interpretation sought to be given to the said note, which was written in defence of the rights of the Company which I represent, and provoked (*motivada*) by the Ministerial correspondence preceding it."

(signed)—FRANK PARISH,
Chairman of Commitee of the Southern Railway.

The motives for the decree of Government are completely refuted by the very reasons adduced by the Committee in their notes; and the attempt on the part of the Minister to introduce the indirect contract of the contractors to lay down the Tramway (which is a document that cannot be here admitted), when there is an existing Law and a Contract with Government which are the only documents bearing on the discussion, is a proof of the weakness of his arguments.

The same inference must be drawn from the scattered and incomplete extracts of a very voluminous correspondence, and from the strange interpretation given to the decree of Feb. 13th, the simple perusal of which is sufficient to completely upset the same.

The observation, that the Directors neither then nor for 9 months after complained against their being obliged to make the Tramway and to prolong the line into Chascomus, is an effort to forget what the Directors have so often repeated, that they consented merely out of deference to the Government in such requirements, but nevertheless demonstrating both then and afterwards that they had a right to refuse such exigencies on the part of Government.

In fine, the extreme sensibility of the Government in declaring disrespectful such words as 'excuses' and 'contradict,' and injurious the term 'fallacious reasons,' is the more surprising in view of the expressions used in the Minister's note, especially the word 'Empacho.' *

Respecting the comments on the official position of the Chairman of Directors, they have been as unexpected as they are improper and offensive, since they contain a very erroneous estimate of his character, and of the good which, both personally and through his friends in Europe, he has procured for the country on repeated occasions, especially in carrying out the Southern Railway: said comments moreover suppose on his part an abuse of his official position, than which nothing could be more distant from his intention.

The Directors, in making these brief explanations, have the pleasure to see public opinion continues to favor the Company and their conduct, as appears from the spontaneous and repeated demonstrations they receive in this sense. They feel persuaded that, as before, the public and the Legislative Chambers espoused their cause [which is that of the progress of the country] and overcame the want of sympathy and opposition of a few well-known [*determinadas*] persons, so now also public opinion [for whose sake this explanation is due] will recognise that, in the discussion of the rights of the Co., which they represent, they have been, above all, guided by the zeal and conscience of their good cause, and have omitted, as in duty bound, to retort any vulgarity of expression, maintaining themselves always in the arena of reason and truth, and regretting that in this manner they have wounded susceptibities which they highly respect.

The Committee of Directors.

* Empacho.—Embarrassment, hindrance, obstacle, surfeit.

PASTORAL SOCIETY OF CEBOLLATI.

If the city of Montevideo claims pre-eminence over Buenos Ayres for the number of its banks, joint-stock Companies, and excellent municipal regulations, so also may the camps of the Banda Oriental point with pride to its pastoral associations and their unprecedented success. But a few years ago these societies were as unknown in the Banda Oriental as they are to-day in Buenos Ayres, but the excellent management of the first of these companies resulted so beneficially to all those connected with it that to-day the most favourite way of investing in estancia property is by taking shares in new companies.

The Merino Society of Tacuari, established in January 1863, with a capital of three hundred thousand pats., is probably one of the most successful in the Banda Oriental; the estancia of the Company is situate in the Department of Cerro Largo, in the camps known as the Rincon Ramirez. It contains 21 suertes of estancia, 15,000 head of cattle, and sixty thousand fine merino sheep—the clip of 1864, amounted to 3,700 arr., and was sold in 38 rls.; this year the clip amounts to 6,000 arr. The wool comes to market baled and ready for shipment. When last in Montevideo we inspected this wool in Jackson's barraca, and certainly we must say that it was a noble lot in quality, condition, and quantity. The Directors who manage the affairs of this Society are D. Jaime Cibils, President; D. V. F. Lopez, Secretary; D. J. Victorica, D. J. D. Jackson, and D. E. O'Neill, Directors; with D. J. R. Ramirez, D. F. A. Gomez, D. A. Perez, and D. N. Z. Fernandez, Vocales.—The Company, although as yet not 3 years in existence, has more than doubled its capital and the shares we were informed are not to be had at any price they are worth 100 per cent premium.

The extaordinary success of the Merino Society has induced those concted with it to start another Joint Stock Pastoral Society, called "The Pastoral Society of Ceballati."

On the 22nd of last month Mr. Cibils, Fernandez, and others, organised this new company, with the object of establishing a joint-stock estancia of 16 suertes in the Rincon de Ramires, upon the following basis:—

The estancia of the company to be 16 suertes of land, situate in a rincon between the Arroyos Parado y Ayala extending to the Ceballati and Laguna Merin, comprising two islands in the confluence of the river Parado with the Ceballati.

The capital to be 270,000 national dollars; divided into 270 shares of one thousand national dollars each.

The shares to be payable as follows,

20 per cent. cash payable on the 1st January, 1866.

20 per cent. on the 1st April.

20 per cent. on the 1st July.

20 per cent. on the 1st October.

20 per cent on the 31st December.

Shareholders are allowed one month extra after each call matures, charging however 2 per cent. on amount due, after which the share shall be forfeited to the company.

Plans or tables showing the investment of the capital and its probable yield are before us, but too long for publication. The best plan or estimate to go by, is what other companies have done. The business seems to us the safest, best, and one of the most remunerative in the River Plate; and we advise all our readers who have a few spare dollars to take a share, as there is every human probability that the shares in a few years will be worth double the money; and, in fact, like the Merino Company of Tacuari, cannot be had on the market.

A VISIT TO CHASCOMUS AND DOLORES.

An Argentinegentleman, and esteemed personal friend of ours, has lately been making a tour of the southern departments and has favored us with much interesting information especially respecting Chascomus and Dolores which may give an idea of the progress these towns are making since the establishment of the G. Southern Railway.

Chascomus is delightfully situated on the margin of a lake, and distant 25 leagues from the metropolis. In picturesque aspect, commercial importance, and rapid and progressive vitality it can stand comparison with the best towns in the Province, and is the centre of one of the most valuable of our sheep-farming districts. Its annual exports exceed 30 million paper dollars [£240,000 sterling], and the town boasts a handsome church, and plaza, besides a small theatre where a native company is at present performing. On one side of the Plaza is the Cabildo recoba or arcade, containing the Juzgado and public schools. The parish-cura is Padre Ampognani, and there are two foreign clergymen, Rev. Mr Spencer, Irish priest, and Rev. Mr Ferguson, Scotch pastor.

The State-schools are very commodious, and the average attendance 65 boys and 90 girls: the smaller number of the former is ascribed to the employment of the farmers' sons in caring sheep. At the annual examinations, on last Friday (1st inst.) the children shewed much proficiency in several branches, especially the boys in Geography, and the girls in needle-work and embroidery. Mr. Gastrell has, also, an English school recently established, which counts already 30 boys. Dr. Crosbie and a native physician attend to the medical requirements of the place, and there are two apothecary's shops. The Hotel Provençal, kept by Sr. Titon, is well-attended and has neat bed-rooms and a good 'cuisine'. The chief houses of business are those of Messrs. Wylie and King, Zavala, Unanué, and Milano; but the first-named is 'par excellence' the great shop of Chascomus, and our informant doubts that it has many equals in the Province: it is at once the Club and Bolsa of Chascomus, known far and wide among both natives and foreigners. Here you can find everything of the necessaries and comforts of camp-life: wares and groceries of every description, ready-made clothing, hats, Rimmell's perfumery, and sparkling Cliquot: to shew the business of this house, Sr. E. alleges that its receipts sometimes pass $15,000 in one day. "I was gratified, he adds, to see the demand for the 'Standard', and learn from Messrs. Wylie and King that you have in this single department 44 subscribers."

But the great ornament of Chascomus is the Great Southern Railway terminus, a handsome building finished in English style with spacious waiting-rooms, offices &c.: all the materials are from the locality, the Laguna providing excellent sand, and the Camarones estancia [belonging to Sor. Aguero] having superior lime. Some years ago the Laguna had a great 'creciente' and the steamer Yerba was able to ascend from the River Plate to Chascomus. There are several princely estancias, belonging mostly to foreigners, in the 'partido;' our informant visited that of the Gándara family: the house is a fine modern building in three massive sections, surrounded by a charming peach-mount with alleys of giant poplars, and the estancia is managed with such order that the wool-returns this year have been unprecedented.

Mr. E. paida flying visit to Ranchos where the spirit of progress has begun to shew itself, the Municipality being earnest in its endeavors to get a branch to the Great Southern Railway—4 leagues to Ferrari. The church and schools are not yet completed, but the Municipality is about to sell the 'chacaras' in order to raise funds. The hotel-accommodation is very good.

Dolores has probably progressed as rapidly as any other town in the Province. In 1854 there were only two Diligences monthly plying with Buenos Ayres; according to a recent calculation there are 40 Diligences, carrying 800 passengers to and fro monthly. The town has a tasteful and busy look, with a fine pyramid in the plaza, bearing a bust of Castelli who made the first, fruitless, revolution against the tyrant Rosas: the pyramid is surrounded by rows of iron-seats. The new church erected by Padre Errausquin and the Municipality, at an outlay of a million $ (8,000 £) has 96 pillars supporting the nave and 4 porticos 'a 4 vientos'. The adjoining block has been purchased for the construction of a Recoba, to contain the schools and Juzgado. The boys' school is conducted by Mr. Abrines, native of Gibraltar, who is highly spoken of: it counts 120 boys; the girls' school has about half that number. There is a small theatre, at present open: a bank under Sr. Brunel, and a service of serenos to protect the town by night. The partido has recently been enlarged; its population is now estimated at 8,000 souls, but will double as soon as the G. Southern Railway be prolonged.

EDITOR'S TABLE.

Yesterday was the hottest day this season; the glass stood 99 in the shade.

The railway war still continues; we publish to day the manifesto of the Committee: it is believed the affair will yet end in the usual manner in Palermo wood. The document in todays paper we translate and publish at the request of the Railway committee.

A subscriber from Porongos, who called to visit us yesterday, informed us that the increase in nearly all the flocks in the Banda Oriental this year has been most prodigious; our friend states that the increase in his flocks this year averages 80 per cent.

The loss of the Liverpool steamear Herschell threw a gloom over the city yesterday. We publish in another column full details of this lamentable affair, as also a letter received by a merchant in this city from one of the passengers. A gentleman arrived from Montevideo yesterday morning gave us still further details; the agent at first tried to charter the Porteña to go to the rescue, offering seven hundred Patacons per day or a third of the salvage, but it was declined. The Captain of the Herschell seems to have acted with the greatest caution as he kept two ships alongside of him when up under sail to beach the vessel. The Herschell struck on what is called the Paloma rocks, off Punta de Deste.

The dust yesterday in town was again insufferable. On all sides we heard complaints about the streets not being watered, and some of our subscribers request us to ask Mr. Cazon what has become of Rosas's watering carts. The feeling against the Chief of Police on this matter is so strong that Mr. Cazon had better look sharp and get the streets at once watered.

To day there is a grand 'pic-nic' to the Islands of the Paraná. The steamer 'Lili' has been specially chartered, for the occasion, and from what we hear we believe it will be agay affair.

At Palermo the great Cricket Match will come off according to notice, although we hear that one of the best players is so ill that he will be unable to attend.

At Belgrano the races, some of the best horses in the country will run. The wagers are unusually heavy, and the sport promises to be very good.

At the 'Lomas de Zamora' agrand auctioneers 'pic-nic,' free ticket in the railway and free Champagne at the quinta of Mrs. Kidds which will be knocked down to the highest bidder without the slightest reserve—at the Boca there is talk of a boat race in the Riachuelo between two amphibious Italians from the mole up to Marshalls and back; it is uncertain yet whether this race will come off to day or not—Our readers can see however that there is no lack of amusement. We unfortunately can go no place, having to prepare our packet edition.

It will interest some of our readers to know that Mr. Montegriffo of Barracas has received a letter from Mr. Gladstone formerly of the Southern Railway, Mr. G. is in England waiting the return of Sir Morton Peto from the States.

One of our city clerks has recently sold a very fine collection of postage stamps for $3,000 m|c. The purchaser has returned to England in the Arno.

In Giles the Municipality, &c., have had a splendid 'funcion.' All the principal people of the town and partido attended. It was the grandest affair ever known in that weedy town. We are glad to hear that the place is improving, but when we knew it it was one of the most neglected villages in the camp.

Commander Barros has arrived in town to solicit Government to build the new town which is ordered to be constructed at Los Tres Arroyos, in a place called Pillahuinco which is a more advantageous spot to command the frontier.

Watson's Hotel to-day at Belgrano will be the great rendezvous for fashionables; ices ad libitum, sherry coblers, and "up and down stairs."

The Ladies' Bazaar at the Club Progresso netted exactly $ 636,568, it seems that 2420, received in small bills proved to be forgeries, which is a great shame.

The law vacation will now soon commence. The courts close and judges and lawyers leave for the country for one mouth, owing to the blocked up state of the courts. This vacation is extremely inconvenient.

Private letters, received from headquarters, state that the Brazilians will at once go at Humaytá and make a smultaneous attack by land and water. Lopez knows all about it, and is preparing accordingly. It will probably be the greatest fight that ever yet took place in South America.

LATEST FROM MONTEVIDEO.

LOSS OF THE HERSCHELL.

December 6th, 1865.

I noticed in my last the nomination of a Commission or Board of Immigration in this city, in conjunction with a central Office of Immigration and Agriculture which the Government has just now appointed with the view of indirectly fomenting immigration in the Banda Oriental. Strange to say, this wise measure has been disapproved of by the 'Siglo,' and one of its editors, in censuring the Government, advances the curious theory that before we have emigrants amongst us we must put a stop to the homicides so constantly committed in the campaña, as their frequent occurrence is what makes people turn away with disgust from the Banda Oriental. Such a funny objection is of course too puerile to call for refutation, and reminds one of the individual who walked about with the piece of cloth under his arm waiting for the last new fashion, to make up his coat, and waited so long that he caught cold and died! What the state of Buenos Ayres and its provinces would still be had the Government there attempted to work out the theory advanced by the sagacious writer in the 'Siglo' may be judged of by those who recollect the number of crimes brought under public notice every week for the last fifteen years.

The 'Siglo' seems to view with jaundiced eyes everything which is done by the present Government in the way of material improvements. So, for example, we have the senseless criticism on our countryman, Mr. McColl, as President of the Board of Public Health, for the sanitary measures proposed by this gentleman. Such, too, is the war waged against Mr. Mundell, and as if nothing more was wanted to place the 'Siglo' in a very false position with respect to the country and the foreign community, we find it denying at once the right of the Government to bring in certain measures of public utility, attempting thereby to circumscribe their action, and condemning those acts of certain Chiefs of Police where the exemplary chastisement of atrocious crimes has had something of the character of Lynch law about it in its following so closely on the heels of the misdeeds.

The news was received this morning of the loss of the Herschell on the coast of Maldonado. She struck on a rock and was severely damaged; the crew and passengers have all been saved, and it is believed a considerable part of her valuable cargo will be got out of her. She brought some 50 passengers.

Several sales of wool have been made at 37 rls. and 38 rls. Some estancieros are still holding out for higher prices, and I am assured that such will be obtained for moderate sized and select lots.

NOTES ON THE COLONIES.

Esperanza Colony was planted by Sr. Castellanos about ten years ago. It is about nine leagues west of the city of Santa Fé, about the same distance from the colony of San Carlos, and contains about 330 families. They are chiefly from Switzerland, though a few are from France, Germany, and Italy. There is a vacant league of land around this colony for free pasturage, and thousands of cattle are driven morning and evening along the

unfenced roads to the rich grass, or home to the 'corral.' A forest near by affords timber for building, for fuel, and also for immense quantities of charcoal. The buildings first erected are usually 'ranchos,' but they are giving way to the comfortable farm-house. No colony in this country is more certainly prospering than Esperanza: in some parts we see fields of 40 and even 80 acres of wheat; the harvesting is done by machinery.

In addition to the large quantity of wheat and maize sold, the people sell a great deal of butter and of cheese: a great defect in the making marks nearly all the butter and cheese of the colony. When they learn how to prepare these articles, they will have a new source of wealth. There are three church edifices and three ministers, viz., Catholic, Evangelical, Lutheran, and Methodist Episcopal.

The river Salado runs between this colony and Santa Fé city. This is the stream that Sr. Dn. Esteven Rams is making navigable. If that navigation ever becomes valuable to the country, Esperanza will reap the first profit, for it is the first settlement from the mouth of the river, and the centre of the colony is only three leagues from the Salado river. There are a few improved concessions for sale in Esperanza, but there are no vacant lands in the whole settlement of four square leagues.

San Carlos is a colony about 9 or 10 leagues southward from the city of Santa Fé. The ground intended to be occupied by the colony is 4 square leagues. The farms or concessions are given to the settlers on easy terms, and each farm contains 20 squares. Adjoining each settler there is one lot left vacant, and it is not to be offered for sale until after a definite time, when the settler shall have the first claim to it at the valuation: meantime it is free pasture ground.

The residences, 204 in all, are chiefly 'ranchos,' but there are now six good brick houses, with azotea roofs. The usual occupation is farming, and wheat is the staple product. By an arrangement among themselves, the animals are so carefully driven outside of the colony, or herded, that no fences are needed; and some farmers are reaping their eighth annual crop from their unfenced fields. The ground is rich and produces excellent crops. There are in the settlement 410 Swiss (speaking German and French), 18 Germans, 200 Italians, 95 French, 5 Argentines. So stood the numbers in 1864.

The various employments of mechanical life are so divided that they have 2 mills, 1 carpenter, 1 blacksmith, 3 stores, 11 pulperias, 1 chapel, 3 schools. There are 210 concessions yet vacant. Those of San Carlos who are sober, and industrious, and economical, are rapidly rising towards wealth. The Catholics have a church: they are in number about half the people. The Protestants have one minister for each of the two principal languages spoken, and are preparing to erect a church. They occupy at present the premises once used by the Catholics. The edifice is ample for the present for church, school, and parsonage.

Specie fell again to-day, and the market is so weak that brokers now complain of the Government having fixed 25 as the value of the paper dollar. But for this incautious step on the part of the Legislature, gold would to-day be probably under 25; yet notwithstanding the attempt of Government to fix a value on the currency, it is the general belief on 'Change that on the 31st of December patacons will close at 24½ to 24¾. Paper money is so tight, and it being the interest of wool buyers to keep specie down, any attempt to stiffen the market would be met by the wool exporters throwing millions of patacons on the market, which can be most easily accomplished, owing to the plethora of gold. The loss to the farming interest by the great decline in gold, can only be estimated in millions, since it is idle to suppose, when the wool season is over, paper money will retain its present high value. So stupendous a speculation as that at present going on has not for years been known in this market. Taking the wool crop of this province at six millions of arrobes, the present decline in paper results in a certain loss of 75 to 100 millions of dollars paper money to the producers. Until farmers begin to sell in specie, there is no possible escape from this, owing to the fluctuating character of our currency.

The dispute between the Government and the Great Southern Railway Directors was the subject of much comment on 'Change, it being known that the Committee had sent to the papers a manifesto in answer to the Government decree. All parties regret the continuance of this polemic and sigh to have the road opened. It was even sharply remarked that the Committee had now the report of the Government on the line, etc., two days, and yet nothing had been done on it. Some brokers regard this dispute as even more serious than the Paraguayan war, but the general wish of the commercial community is that the road should be at once opened to public traffic.

The sales of specie on time were unimportant; 33,500 for Saturday at 25 55, and for the end of the year at 69,500 at 25 65; on long dates only 36,000.

In National Bonds nothing done; some few were offered at last quotation.

Exchange rules active at 50d., best bills in the market offered at this rate.

The new saladero at Higueritas was spoken of; we understand that it is being built by Mr. Henry Zimmermann, and that it will begin working about the 1st of January; it is almost exclusively for capones, which are so abundant in that neighborhood that the farmers can obtain no price for them and the new saladero will meet a want long felt and be a great benefit to the sheepfarmers in that neighborhood.

The Boca Railway will be opened to the plaza in the Boca on Monday, which it is thought will greatly increase the traffic on this line.

In the wool plazas things are coming to a crisis. The dust this morning baffles all description. The carts could not be opened in the Once de Setiembre. There was positively nothing done: all the owners of good wool came up to town refusing to open their carts. The plaza is full, the Barracas overflowing, the Flores road impassable, owing to the number of carts waiting outside to get in: even the very side streets are now full of carts. To-day nothing was done, to-morrow (Friday) is a holiday, Saturday no buyers go to the plaza; Sunday, of course, an idle day. In the meantime the wool carts keep coming in. Between to-day and Monday at least one hundred and eighty to two hundred carts will arrive; but where are they to go to? for in and about the plaza they won't fit. The plain fact is, that our wool staple is too much for this market. The plaza is too small, the buyers too few, the paper money too little, and the barracas too narrow. The sheepfarmers are going ahead too fast for the town: the Minister of Hacienda ought to go up to the plazas every morning and devise some means to accommodate the wool.

Montevideo, Dec. 6th; 1865.

The loss of the Herschell is the sole topic in the city; full details are not as yet at hand, but it is believed that the greater part of the cargo will be saved; everything, with the exception of passengers' luggage, is insured, and the steamer, also, to its full value.

The saladeristas are killing slowly, owing to the difficulty in getting the troops in from the country. The saladerista league is almost a dead letter, as the capataces from the saladeros here pay as high prices as those from the Uruguay. Business is now very brisk both with our importers and exporters. The following are the wool-sales effected to-day:

One sale effected the other day has been rejected, purchaser refusing to take wool because it has old carratilla.

The following vessels have commenced loading:

British barque Stolla, for New York, dry hides and wool, by Darbyshire & Co.

British barque Wreath, for Liverpool, tallow, etc., Bell & Co.

French barque Alfreda, for Havre, hides, horns, etc., F. Rival.

The Prussian brig Catherina is cleared for Rio Grande and Port Alegre, by Schwarts, with 3,000 bags wheat, etc.

The French barque Racine, for Havre, with hides and wool; shippers, Hocquard, M'Lean, Langembeck, Despouy, Biraben (who ships nearly one thousand bales preserved beef,) Barthold & Co. and Apestegui. This vessel takes about 350 bales now wool.

Messrs. Zumaran have shipped per Maria Isabel 14,000 dry hides to Malaga.

Two more vessels have arrived with salt; the Brilhante, from Rio, and the Rossini, from Cape Verde.

Within the last three days some eighteen hundred bags of wool from the Uruguay have arrived; the clip this year promises to be very much ahead of that of last. The Truchas failure it is feared will cause other suspensions.

SAVINGS BANK.

BANK MAUA AND CO.

No. 103 Calle de Cangallo,
BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mauá and Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.

The sums deposited in that most important institution are daily increasing, and already reach a very large amount.

These advantages, have not hitherto been enjoyed in this city by an immense number of clerks, artizans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá and Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and will open a Savings Bank at No. 103 Calle Cangallo, from Nine a.m till Three p.m on Week Days, and on Sundays and Holidays from Ten a.m. to Twelve m., for the reception of the savings of the classes already mentioned.

The Bank will deliver to each depositor a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interest will be calculated up to date.

The Bank of Mauá and Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mauá and Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighbourhood.

Buenos Ayres, September 19, 1868.

P.p. Mauá and Co.
WILLIAM LESLIE

CONDITIONS.

Second—The interest allowed is six per cent. (6 p ⅁) per annum, which is liquidated ever six months.

Fourth—Once the money deposited exceeds twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wishes, can open an account current, according to the rules established by the Bank.

Fifth—In case the depositor loses his pass book, it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

REMATE

POR BENJAMIN NAZAR y Ca.

De 67 carneros Negretti sangre pura venidos por el buque 'Ludwig' que salió de Amberes el 5 de Agosto.—Por órden de los Sres. Roosen Hopmann y Ca. En su casa calle de la Victoria 154.

El Jueves 14 de Diciembre á las 11 en punto se rematarán á la mas alta postura y dinero de contado los especiales carneros que a continuacion se espresan.

37 carneros de la Cabaña del Baron de Schachten, conocida en esta. Estos carneros se distinguen por su lindo tipo negretti, finura de lana que tiene un lustre brillante y muy poblada en todas partes del cuerpo, como tambien igualdad en todas sus propiedades. Vienen entre estos 7 carneros que se habian reservado para el uso propio de la Cabaña y estos han sido obtenidos por favor especial.

17 carneros negretti de la Cabaña Raudnitz del conde de Stemberg en Silesia; esta Cabaña prueba su origen directo de España y por eso posee la gran constancia en la sangre que da la seguridad en el procreo. La lana es muy fina, de un largo mediano y de nobleza de caracter incomparable. En estos carneros vienen refinadores de lana inmejorables.

7 carneros de la Cabaña Kwigenburg y 6 carneros de la Cabaña Uebelgoonne, estas Cabañas son casi iguales. En tipo vienen los animales mas sobresalientes que hay en carneros negrettis y a mas son de lana estraordinariamente larga, fina y tupida.

2 carneros de la Cabaña de Giechauin estos animales dan un vellon de gran peso; uno de ellos pasará de 22 lb. de lana.

A los Sres. Hacendados recomendamos la valiosa partida de carneros que tenemos desde hoy en exhibicion en nuestra casa; una de las mejores recomendaciones que podemos hacer de ellos es que son escogidos de las mejores y mas afamadas Cabañas de Alemania, por el Sr. Don Alfredo Rosenthal autor del librillo La Oveja Negretti en el sentido de la produccion de lana en paises transatlanticos.

Todo elogio que se haga de estos carneros es poco comparado con el valor de ellos y este esperamos que sea dado por los Sres. que se dedican al refinamiento en este ramo.

POR EL MISMO.

De 27 carneros Rambouillet sangre pura, de la Cabaña Vuaflart Oudin en Caument. venidos en la fragata francesa 'Abd-el-Kader' procedente del Havre. Por órden de los Sres. Pigretty y Cervetti.

En su casa calle de la Victoria N. 154.

El Jueves 14 de Diciembre á las 11 en punto se rematará a la mas alta postura y dinero de contado los hermosos carneros Rambuillet que a continuacion se espresan:

27 carneros Rambuillet sangre pura de la afamada Cabaña Vuaflart Oudin; esta Cabaña tiene 35 años de fundacion siendo desde su origen con carneros puros Rambuillet lo mismo para el cruzamiento y refrescar la sangre, y esto se ha hecho con carneros de las principales cabañas de Francia principalmente de Seine y Oise para obtener gran desarrollo é inmenso tamaño y con abundante lana fina.

De estos carneros vienen algunas fotografias y todas con lana de 4 meses y asi mismo demuestran gran tamaño y tipo Rambuillet.

Los Sres. que gusten inspeccionarlos pueden pasar por nuestra casa de remate.

NOTA—Las dos partidas de carneros se rematarán el mismo dia 14 de Diciembre.

For Sheepfarmers in Santa Fé.

Rams of the Rambouillet breed crossed with the Negretti, for sale at the estancia of the undersigned, Cañada de los Leones, 16 leagues north of Rosario, and 6 leagues from the Paso Corondona del Carcarañagin the Partido San Geronimo de Coronda.

These rams, introduced into the province of Santa Fé from the well known estancia of Mr. Richard B. Newton about nine months ago, are well accustomed to the pasture of this province now, and may therefore well be recommended to sheepfarmers who are about to move to this province and do not like to run the risk of losing their rams on the journey, or in consequence of the change of pasture. The prices are from ten Bolivian dollars upwards.

The Bienhechora offers three various modes of Insuranee to its subscribers: 1st, with the loss of capital by the death of the Insured party; 2nd, without loss of capital in said event; 3rd, with mere compound interest.

In the first form the Insured party has a right to;

1. To compound interest on the bonds purchased by the capitals received by the Company.
2. To a propertionate share of the capitals and interest of those who die in their respective sections.
3. To a proportionate share of the Capitals and Interests of forfeited subscriptions.
4. To a proportion of gains resulting from increased value of the National Bonds acquired by the inversion of funds.

In the second form the Insured claims

1. Compound Interest on the National Bonds purchased by the Association,
2. A proportionate share of the Interest due on the Capitals of those who die in the respective sections, which capitals are returned to the subscribers
3. A proportion of the interest due on forfeited shares.
4. A proportionate share of the profits arising from the increased value of the National Bonds, acquired by inversion of funds.

Finally, in the third form, gives a right to the corresponding interest produced by the Bonds purchased with their subscriptions, and the successive reinvestment of such interest, effected quarterly, when the coupons are paid up by the public treasury.

So marvellous are the benefits arising from the employment of Capitals in Public Funds, assisted by the combinations effected by "La Bienhechora," based upon the Mortality Tables of Deparcieux, and the interest produced by the 6 per cent. Consolidated Bonds, that taking for a model, the result given by other companies established precisely in the same form and basis, but with an accumulative interest much inferior to that gained by the "Bienhechora," that it is enabled to present as positive the following tables showing the gradual progression of capitals for a subscription of:
